Madrid, Spain

## PROFESSIONAL EXPERIENCE

### Freelance Video Game Systems Programmer (2016 - Present)

Freelance developer with 8 years of experience in designing and implementing video game systems.

Specialized in C++ for system logic development, Python for UI design, and MySQL/MariaDB for game-related database management.

Proficient in Lua for coding external scripts and integrating libraries to support system development.

Skilled in database execution and data storage to support seamless gameplay experiences.

### Freelance Front-End Web Developer (2023 - Present)

Freelance developer with 1 year of experience in front-end web development. Skilled in creating web pages using both pure code and WordPress, with experience in managing and customizing templates, as well as enhancing development through pure code.

Proficient in React for building dynamic and interactive web applications, with experience in both independent development and framework-based solutions. Capable of designing and developing web pages while ensuring optimal functionality and a smooth user experience.
